

Xsigo Education

World-Class I/O Virtualization Training Programs

Maximize the return on your virtual I/O investment with Xsigo Education programs. Xsigo offers comprehensive training to give your IT team the skills they need to master I/O virtualization technology.

Benefits of Xsigo Education programs include:

- Increased productivity
- Lower support costs
- Expertise in the rapidly growing virtualization space

Eligibility

Xsigo Education courses are available to Xsigo Systems current customers or customers awaiting delivery of their systems.

Registration

For a schedule of upcoming classes, please contact education@xsigo.com. Using the valid email address you specify during registration, you will receive an email acknowledging your class registration request. The receipt of this email does not confirm your registration.

Confirmation Process

Your registration will be confirmed via email when we have received a Purchase Order. Confirmation emails will provide information about the class (location, start date/time and end date/time), your confirmation number, directions to our training centers, payment requirements to guarantee that the space is held for you, and cancellation policies.

Wait List

Xsigo Education accepts registration requests for fully booked classes. You will receive an email indicating your position on the waiting list. If space becomes available, you will be notified. Payment and cancellation policies will be described in our email notification.

Payment and Pricing Information

A Purchase Order is required to secure your reservation. Please provide the PO number and amount at registration time. A copy of the PO should be faxed to Xsigo Education at **408-329-5600**.

About Xsigo Systems

Xsigo is the technology leader in data center I/O virtualization, a solution that dramatically reduces operational expense by changing the way that servers are connected to networks and storage.
